

# Reversing Cancer

A seminar that will change your life  
You will learn how:

*To take steps to prevent getting cancer*  
*To help reverse cancer if already diagnosed*

## **Chances are high that you know someone who has cancer**

156 New Cases of Cancer Are Diagnosed Every Hour!  
50% of men will develop cancer in their lifetime  
33% of women will develop cancer in their lifetime

(American Cancer Society's latest statistics)

**Join the author of *Reversing Cancer* and learn how to empower yourself to better understand the nature of cancer and how to fight back.**

*Reversing Cancer* is a powerful personal journey reversing a stage III ovarian cancer with minimal side effects using alternative medicine integrated with conventional treatment. This seminar describes effective, non-invasive advanced technologies to destroy cancer while preserving the immune system and body integrity. The concepts provided can be applied to any form of cancer.

**Don't miss this opportunity to help someone  
regain their quality of life!**
