

## **New Seminar Revealing Cutting-Edge Information**

**Quantum Nutrition Concepts (QNC)** was developed to expedite patient healing. This two-day, hands-on workshop with live patients will assist practitioners to learn how to:

- Diagnose the true underlying cause of patients symptoms
- Implement a more accurate diagnostic system
- Correct patient energy imbalances by matching the correct quantum nutrient.

**The Quantum Nutrition Seminar integrates a comprehensive approach focusing on how to:**

- Improve your own and your patients health by implementing a 7-step program
- Quickly resolve complex health issues and chronic pain
- Reverse periodontal problems and chronic tooth pain non-invasively
- Reverse ADD and ADHD, Bipolar disorder, shingles, hepatitis C, postpartum depression, schizophrenia, chronic pain, hypothyroidism, chronic fatigue and more.

*Doctor Smith's 38 years of clinical experience will help you build a more profitable practice by teaching you how to successfully resolve medical and dental failures. You will learn concepts that can be applied to all patient situations:*

**Case 1: V.W.** A 62-year old male patient was told he needed full mouth periodontal surgery to correct his deep pockets and chronically inflamed gingival tissue. Direct Resonance testing revealed eight different pathogens including various viruses and bacteria. Following routine deep root planning, scaling and curettage the patient was placed on a supplement program and treated with Bio-frequencies. After ten treatments and two months nutritional support, the original periodontist was amazed at the reduced pockets and normalization of soft tissue.

**Case 2: Alexander B.** is an 8-year-old male who was labeled by the school psychologist as suffering from ADHD. Ritalin was recommendation to control his hyper activity and improve his attention span. The mother refused and sought alternatives. Direct Resonance Testing revealed components of several vaccines and Thimerosal to be the underlying factors for the attention deficit disorder and hyper activity. Following six weeks of a custom nutritional supplement program, Alex scored 100 on three consecutive math tests and the teachers witnessed a dramatic calming in his behavior.

**Case 3: R.B.** is a 35-year-old female who suffered severe postpartum depression, thoughts of suicide and insomnia for seven months. As a drug representative for a major pharmaceutical company she had access to what she thought was the "Gold Standard" of medicine. Robin spent five days in the University of Pennsylvania hospital where she underwent extensive testing. Nothing positive was uncovered. She then consulted with the head endocrinologist at Jefferson Hospital in Philadelphia. He also could not diagnose any abnormalities. She personally contacted every one of her 350 client/physicians. Not one could give her positive guidance for recovery. Robin was referred to my office for examination and treatment. Within ten minutes a diagnosis was made connecting her severe postpartum depression and insomnia to a dental origin. A custom nutritional program was integrated with a prescription for a natural hormone. Within 24-hours

Robin's life was put back to normal.

**Case 4: Ann G.** is a 70-year-old female who suffered severe, unrelenting mouth pain for ten years. All traditional testing, examinations and pain medications did not affect her symptoms. Magnifying the severe oral pain was the overlaid adverse effects of sleep deprivation (exhaustion, fatigue and lack of physical energy). Direct Resonance Testing quickly uncovered her problem as viral based. Ann was placed on a basic nutritive protocol to rebuild her immunity. Bio-frequency treatment was initiated after four weeks. Following three sessions, Ann's severe mouth pain was totally resolved and for the first time in ten years she was able to sleep through the night.

This unique seminar educates participants on how to correct the underlying problem(s). You will also learn how to use many of Premier Research's quantum formulations and other high quality products to effect maximum results. Doctor Smith's global approach to nutritional based diseases coupled with overlaying dental factors presents an integrated paradigm. You will learn how to recognize the real causes and change the mechanisms to reverse bipolar, schizophrenia, depression, shingles and insight on how to reverse cancer.

Doctor Smith's concepts appear in several of his authored books, Cranial-Dental-Sacral Complex, Headaches Aren't Forever, Alternative Treatments For Conquering Chronic Pain, and Reversing Cancer: A journey from cancer to cure. - **CEUs:** 28 AGD Credits (2-day on-line course; 2-day workshop)
- **Date:** March 30 & 31, 2007
- **Location:** Dr. Smith's office - Langhorne PA
- **Cost:** US \$1500
- **Attendance:** Limited
- **Hotel Accommodations:** local area hotels and motels.
- **On-line Registration:** [www.icnr.com/prof/courseregistration.html](http://www.icnr.com/prof/courseregistration.html)
  
- **Please view our other five innovative seminars at [www.icnr.com](http://www.icnr.com)**
