

ALF Residency

Registration Form

Session I: Diagnostic Indicators and basic ALF design and treatment - \$2000

March 2 & 3, 2018

Session II: Advanced ALF design and treatment concepts - \$2000

April 20 & 21, 2018

Session III: Advanced ALF design and treatment concepts - \$2000

May 4 & 5, 2018

Session IV: Preventing adverse treatment sequela - \$2000

June 1 & 2, 2018

Limited Attendance

Dentistry's Best Kept Secrets Exposed

Presented by

Gerald H. Smith, DDS, DNM

Non-Surgical ALF Tx

Hands-On Workshop

Langhorne, PA

2018 Schedule

Limited Attendance

- Session I** - March 2 & 3
- Session II** - April 20 & 21
- Session III** - May 4 & 5
- Session IV** - June 1 & 2

Up to 56 CEUs

ALF: Advanced Lightwire Functional Appliances

The ALF System raises the bar of treatment excellence!

Learn how to diagnose and treat dental orthopedic and orthodontic cases more efficiently.

You Will Learn:

- Why the ALF System is the most advanced orthopedic/orthodontic system available
- How to simplify orthopedic/orthodontic treatment with non-invasive techniques
- 3-Dimensional Dental Orthopedics/Orthodontics using the ALF System
- Innovative cranial indicators to guide ALF appliance adjustments
- Why the ALF System helps reduce orthodontic relapse
- How dental malocclusions and cranial distortions impact the entire body
- How a dysfunctional dental complex is the source for 70% to 90% of all medical problems

ALF Residency Program:

The ALF Residency program developed by Dr. Smith is the most advanced, comprehensive system available for diagnosing and treating orthopedic/orthodontic cases 3-dimensionally. Integrating Dr. Smith's diagnostic cranial-indicator system focuses on correcting the underlying cranial distortions associated with orthodontic malocclusions. The comprehensive treatment concepts provide a more effective alternative to RPE therapy for narrow maxillaes and obstructive sleep apnea. The ultimate course objectives are to treat patients non-invasively, more physiologically, reduce chair time, use fewer appliances and increase case stability. The ALF System raises the bar of orthopedic/orthodontic excellence.

What The Experts Are Saying:

“Dr. Smith has spent his life refining difficult treatment modalities down to easily understood, easily taught concepts. From my own years of study, I can truthfully say that I am in awe of the incredible amount of information I brought home from his ALF workshops. Dr. Smith is dead on in diagnostic approach and treatment delivery.”

Mark Warden, DDS

Specializing in Integrative Dentistry

Patient Case Evaluations:

Attending doctors can submit patient orthopedic/orthodontic cases and chief complaints for in seminar evaluation. Limit two cases per person per session.

Session Curriculum:

March 2 & 3, 2018 (9:00 am - 5:00 pm)

Session I: Introduction to Diagnostic Indicators:

- Learn the most advanced diagnostic system to guide ALF appliance adjustments.
- Understanding the principles of ALF design, case diagnosis and treatment.
- Learn to recognize a common medical condition that can sabotage orthodontic treatment.

April 20 & 21, 2018 (9:00 am - 5:00 pm)

Session II: Advanced ALF treatment concepts

- How to successfully retreat orthodontic failures.
- Learn why ALF is a more physiologic alternative to RPE.
- Learn advanced ALF appliance designs and Tx.
- Resolving arch width and arch length deficiencies.
- Overcoming the narrow arch problem.

May 4 & 5, 2018 (9:00 am - 5:00 pm)

Session III: Advanced ALF treatment techniques

- Learn why ALF is more effective in Tx of OSA.
- Learn how to minimize periodontal damage using food based nutrients.
- Participant's case evaluations

June 1 & 2, 2018 (9:00 am - 5:00 pm)

Session IV: Preventing adverse Tx sequela

- Learn how to prevent TMD, migraines, head, neck and facial pain problems from faulty orthodontic mechanics.
- Review diagnostic indicator system.
- Diagnostic and treatment planning of practitioner's cases.

About Dr. Gerald H. Smith

Doctor Smith is a recognized international authority on craniomandibular somatic disorders with a focus on resolving chronic pain. He is the author of numerous articles on the ALF appliance and two landmark textbooks for professionals, Cranial Dental Sacral Complex and Dental Orthogonal Radiographic Analysis. He has contributed equally important books: Headaches Aren't Forever, Reversing Cancer, and Alternative Treatments For Conquering Chronic Pain. The latter is one of the first books integrating osteopathic, chiropractic, dental, medical, physical therapy, and nutritional concepts. Doctor Smith's forty-eight plus years of clinical research has uncovered several of the major missing links that focus on the dental whole body connection regarding the treatment of cancer, chronic pain, and somatic structural instability. Doctor Smith has lectured internationally on the ALF System and its benefits in resolving TMD and chronic pain. He is past-president and editor of the Holistic Dental Association, past president of the Pennsylvania Craniomandibular Society, and recently awarded the prestigious international Spectrum and Statuette awards. He has a specialty practice in craniodontics, chronic pain, and nutrition in Langhorne, Pennsylvania.
