## The Dental Whole Body Connection Residency Program

The Dental Whole Body Connection Program is designed to teach a comprehensive approach to resolving a broad spectrum of dentally caused medical issues. Doctor Smith's 50 years of clinical practice provides the research for resolving chronic TMD, head, neck, facial and low back pain, resolving autoimmune diseases, congestive heart failure, cancer, vertigo, linked to dental origins; plus Lyme, Systemic Lupus, post-concussion syndrome, and many more medical issues that have a dental origin.

### What the Experts Are Saying

"Thank God we have you!

You are always a million years ahead in healing compared to conventional treatments.

Can't wait for residency courses in advance techniques in the Theraphi Plasma System and CyberScan.

All your training has saved hundreds of lives in my practice. I mean from death. I use your training every day — from the basic nutritional concepts to scalar technology.

Thanks for making a difference and making me make a difference in these times."

Sincerely,  
Your Student Always

**Paul Moon, DDS, IMD**  
Toronto, Ontario

"I love the fact that Dr. Smith teaches from a common sense point of view.

I find the simplest answer is usually the right answer, and Dr. Smith has spent his life refining difficult treatment modalities down to the easily-understood, easily-taught concepts.

From my own years of study, I can truthfully say that I am in awe of the incredible amount of information I brought home from his workshops. Dr. Smith is dead on in his diagnostic approach and treatment delivery."

**Dr. Mark Warden**

## The Dental Whole Body Connection Residency Program

Dr. Smith is a recognized international authority on craniomandibular somatic disorders with a focus on resolving chronic pain. He is the author of numerous articles on the ALF appliance and two landmark textbooks for professionals, *Cranial-Dental-Sacral Complex* and *Dental Orthogonal Radiographic Analysis*. He has also contributed equally important books: *Headaches Aren't Forever* and two recently published books, *Reversing Cancer* and *Alternative Treatments For Conquering Chronic Pain*. The latter is one of the first integrating osteopathic, chiropractic, dental, physical therapy, and nutritional concepts. Doctor Smith's fifty years of clinical research has uncovered several of the major missing links that focus on the dental whole body connection regarding the treatment of cancer, chronic pain, and somatic structural instability. Doctor Smith has a specialty practice in craniodontics, chronic pain and nutrition in Langhorne, Pennsylvania.

## Residency Objectives:

- Defining and treating the underlying cause of diseases
- The five key areas of dysfunction
- Defining core issues using Quantum Energy Testing Techniques
- Participants are invited to bring a difficult patient for evaluation
- Defining the basis for post-concussion syndrome
- How to manually correct a concussion patient
- Understanding the physiology of aging and the disease process
- How to treat dental pain and pathology with nutrients
- Understanding and applying energetic medicine to dental and medical maladies
- Live patient evaluations to enhance your learning experience
